

# State-wide Gaming Machine Statistics

## Revenue and Taxation Receipts

Under section 72A of the *Gaming Machines Act 1992* the holder of a gaming machine licence must pay, for each financial year, the prescribed rate of gaming tax on the net gambling revenue derived in respect of the licensed premises.

### Gaming Tax

In South Australia, different tax rates apply to the income gained from gaming machines, known as 'Net Gambling Revenue' or simply as NGR, depending on whether the gaming venue is operated by a for-profit organisation (e.g. a hotel) or a non-profit association (e.g. a club or community hotel).

Net Gambling Revenue (NGR) is the total amount of all bets made on gaming machines in a gaming venue, less the total amount of all prizes won.

There is a \$75,000 tax-free threshold and then different tax rates apply progressively to six further income levels.

### Gaming tax calculation

Gaming tax is payable each month. It is calculated by Consumer and Business Services (CBS) based on the NGR for the calendar month as reported by the state-wide gaming machine monitoring system operated by the Independent Gaming Corporation Limited (IGC).

### Publication of statistics

In accordance with section 20 of the *Gambling Administration Act 2019*, the Liquor and Gambling Commissioner makes publicly available statistical information about expenditure relating to gaming machine operations in the State's hotels and clubs.

Statistical gaming machine data is published on the CBS website monthly, As content is regularly refreshed and files are periodically archived, gaming machine revenue information that was published before 1 July 2009 is no longer available on the CBS website. The following table lists the amount of gaming machine revenue and taxation receipts that have previously been published from 1994 to date.

### Key Points

- Net Gambling Revenue (NGR) is the total amount of all bets made on gaming machines less the total amount of prizes won
- The total Net Gambling Revenue (NGR) from South Australian Hotels and Clubs for 2021/22 was \$831.12 million
- The total amount of gaming tax paid by South Australian Hotels and Clubs for 2021/22 was \$356.23 million
- The average amount of Net Gambling Revenue (NGR) per venue for 2021/22 was \$1.710 million
